

Dam/Weir

Identification	
Title	DW
Abstract	
<p><b>Purpose:</b> The polylines were captured to represent drainage not visible on aerial photography.  <b>Feature:</b> A barrier constructed to control the flow or raise the level of water  <b>Delineation:</b> The limit of a dam or weir is the extent of the exposed built-up barrier.  <b>Representation Rules:</b> Represent as a 1-dimensional object (polyline).  <b>Capture Conditions:</b> Capture all visible earthen and non-earthen dams and weirs.  <b>Capture Scale(s):</b> 1:1200 &amp; 1:2400  <b>Projected coordinate system:</b> NAD 1983, StatePlane Arkansas North, FIPS 0301, Feet  <b>Area Coverage:</b> Little Rock, County South, County North, North Little Rock, and Sherwood/Maumelle  <b>References:</b> U.S. Geological Survey, Standards for 1:24,000-Scale Digital Line Graphs and Quadrangle Maps (DLG-F), pp. 6-20 through 6-31.</p>	
Primary Capture Date	Spring 1997, 1999
In Service Date	January 2003
Status, Progress	Static
File Type	Geodatabase, delivered as shapefile
File Location	PCL geodatabase
Status, Maintenance and Update Frequency	As Needed
Spatial Data Organization Information	
Indirect Spatial Reference	None
Direct Spatial Reference Method	Vector
Metadata Reference Information	
Metadata Date	June 2008
Metadata Contact	PAGis Technical Manager

<b>Metadata Standard Name</b>	FGDC		
<b>Metadata Standard Version</b>	FGDC		
<b>Entity and Attribute Information: Polylines</b> (Attributes with an asterisk (*) are removed before delivery; double stars (**) are generated at delivery from related columns.)			
<b>Attribute Type Label</b>	<b>Attribute Type Definition</b>	<b>Attribute Domain Values</b>	<b>Attribute Description</b>
<b>OBJECTID</b>	Double(10)	Enumerated domain	Unique number, assigned by ARCMAP.
<b>DW_UNIQ</b>	Double(10)	Enumerated domain	A unique number for each polygon, used by PAgis. DW_UNIQ values are never re-used.
<b>DW_NAME</b>	Text(99)	Free Text	The name of a dam or weir.
<b>DW_CODE</b>	Double(10)	730 (DAM)	Indicates code for the type of dam or weir.
<b>DW_TYPE**</b>	Text(20)	"DAM"	Indicates the type of dam or weir.
<b>DW_MAT_CO</b>	Double(10)	1 (EARTHEN) 2 (NON-EARTHEN)	Code Indicates the type of material from which the dam or weir is constructed.
<b>DW_MAT_TY</b>	Text(20)	"EARTHEN" "NON-EARTHEN "	Text Indicates the type of material from which the dam or weir is constructed
<b>SASC</b>	Double(10)	See appendix I	Spatial Acquisition Source Code: indicates the source of the data.
<b>LENGTH</b>	Double(19)	Decimal domain	The length of the arc enclosing the polygon, measured according to the identified projection.
