

Sidewalk

Identification	
Title	SWK
Abstract	
<p>Purpose: The polylines were captured to represent sidewalks visible on aerial photography.</p> <p>Feature: Sidewalk. A hard surfaced pedestrian walkway for general public use</p> <p>Delineation: The centerline of the walkway.</p> <p>Representation Rules: Represent as a 1-dimensional object (polyline).</p> <p>Capture Conditions: Delineate all sidewalk centerlines longer than 50' along roads and through parks. Do not collect private sidewalks associated with residences, schools, commercial businesses, or factories.</p> <p>Capture Scale(s): 1:1200 & 1:2400</p> <p>Projected coordinate system: NAD 1983, StatePlane Arkansas North, FIPS 0301, Feet</p> <p>Area Coverage: County-wide, Lat-long Range: (-92.757101 to -92.029881), (34.491824 – 35.013705)</p> <p>References: U.S. Geological Survey, Standards for 1:24,000-Scale Digital Line Graphs and Quadrangle Maps (DLG-F), pp. 6-20 through 6-31.</p>	
Primary Capture Date	Spring 1997, 1999
In Service Date	January 2003
Status, Progress	Static
File Type	Geodatabase, delivered as shapefile
File Location	PCL geodatabase
Status, Maintenance and Update Frequency	As Needed
Spatial Data Organization Information	
Indirect Spatial Reference	None
Direct Spatial Reference Method	Vector
Metadata Reference Information	
Metadata Date	June 2008
Metadata Contact	PAGis Technical Manager

Metadata Standard Name	FGDC		
Metadata Standard Version	FGDC		
Entity and Attribute Information: Polylines (Attributes with an asterisk (*) are removed before delivery; double stars (**) are generated at delivery from related columns.)			
Attribute Type Label	Attribute Type Definition	Attribute Domain Values	Attribute Description
OBJECTID	Double(10)	Enumerated domain	Unique number, assigned by ARCMAP.
SWK_UNIQ	Double(10)	Enumerated domain	A unique number for each polygon, used by PAgis. SWK_UNIQ values are never re-used.
SWK_UID	Text(12)	Unique identifier As assigned by PAgis partner organization	Allows an organization to assign a user identification to a feature
SWK_ORG	Text(50)	Name of PAgis partner organization	Identifies the organization that assigned swk_uid
SWK_CODE	Long(5)	130 (SIDEWALK)	The code that corresponds with swk_type.
SWK_TYPE**	Text(20)	"SIDEWALK"	Indicates that the feature is a sidewalk.
SASC	Double(10)	See appendix I	Spatial Acquisition Source Code: indicates the source of the data.
LENGTH	Double(19)	Decimal domain	The length of the arc enclosing the polygon, measured according to the identified projection.
